DATE COMPLETED: 2006 - 2014
COST OF CONSTRUCTION: \$15M

Our firm has collaborated with Flewelling and Moody Architecture on several projects on this high school campus starting in 2005 for the Whittier Union High School District and continuing to the present. Each project has renovated a new portion of the campus as well as added a new Classroom/Library Building. Most recently, we transformed a worn rectangular lawn area adjacent to a fire lane into a lush rolling lawn with entry stairs, featured palms, shade trees, and drought tolerant plantings.
