

OPPOSITE TOP LEFT: Surrounded by beds of lavender, the pergola is a quiet refuge in the garden as well as a wonderful vantage point of the expansive lawn and the rear façade.

OPPOSITE TOP RIGHT: An English-inspired garden setting outside the living room has climbing roses and showcases the mahogany trim, which can be seen on all the exterior windows and was chosen for its beauty and durability.

OPPOSITE BOTTOM LEFT: In the spirit of British garden designer Gertrude Jekyll, landscape designer Mark Beall created a series of garden paths to take advantage of the extensive grounds on the property and create enchanted environments for walking or sitting.

OPPOSITE BOTTOM RIGHT: When faced with the prospect of ridding the property of an enormous mature eucalyptus, the family opted to give it a new purpose as shade and protection for their children's tree house.

LEFT: The East Garden continues the English theme with classical plantings such as hydrangeas, azaleas and geraniums.
